User Stories

User Story 1: As a student, I want to be able to search available courses by course code, course name and the professor name to see their sections.

User Story 2: As a student, I want to be able to search for more than one course by separating them with a “;” to see the union of all available courses satisfying the search.

User story 3: As a student, I want to be able to add courses to an online timetable for any semester that has available courses, so I can plan and visualize my courses for that semester.

User story 4: As a student, I want to be able to view my exam schedule, so I can help myself prepare for the end of my semester.

User story 5: As a student, I want to be able to remove courses that have been added to my online timetable, in case I have decided that I do not want that course in my timetable anymore.

User story 6: As a student, I want to be able to download my created schedule to my computer, so that I can physically print it, send it to other devices, and reference it later.

User story 7: As a student, I want to be able to filter out courses I don't want to see when looking up courses, so that I can reduce the amount of searches that don't suit my preference.

User story 8: As a student, I want to be able to clear all courses with the click of one button, so that I can quickly start my course selection process over.

User story 9: As a student, I want to be able to save my favourite courses to a list contained on the website, in order to remember that the courses contained in that list are my preference when selecting courses.

User story 10: As a student, I want a clear indicator that 2 or more courses that I have selected are in a conflict if applicable, so that I can readjust my schedule to avoid that conflict.

User story 11: As a student, I want the ability to see the total number of credits for the courses I have selected for a given semester, in order to keep myself on track to graduate.

User story 12: As a student, I want to be able to adjust the contrast of the website, in order to make viewing the site in low light a breeze.

User Story 13: As a student, I want to see all course departments in another page so that I can search them to see all courses for each department.

User Story 14: As a student, I want to see all departments and the number of available sections and click on each department to view all courses in that department.
